Attention Textron Union Brothers and Sisters:

Anytime workplace injustice affects one of us, it affects us all! I have been notified about this year's flu shot situation and have reached out to the company for understanding, but honestly believe there has been an obvious double standard allowed in this situation. When Managers can get vaccinated on company time, as well as some hourly employees also, but others in our Union family have been denied access unless they go off the clock on their own time, is beyond unacceptable!

I have reached out to the company without resolve, therefore this office will take the necessary steps to grievance this matter. May everyone know this Union looks out for and protects our own. I was not elected into this office to turn my head away from the memberships needs, or to fairly represent only a select few. This office has not and will not let this matter, or any other issue that brings inequality to our members continue without a fight. That is why the IAM and this office exists.

In Solidarity,

Cornell Beard
President/DBR

"Proud to be Union"
